"Have you read... do you know what the SUPREME COURT said." Sorry, but give me a break. Who cares. I do not. BECAUSE I am not a PERSON liable to those stupid rules. ARE YOU? Guess you are. You need to keep playing in the garden of the court gods. Rodrigez WON in the supreme court - isn't that just wonderful. Gee I guess I should really be impressed. BUT what does that have to do with ME a non-statutory legal PERSON liable to their garbage.

I will tell you again what I will say to them when they haul me away: "I have no reason or need to answer or talk to you. It is none of your buisness whether I understand my rights or your fictitious unsworn information charges. It is none of your business whether I need counsel or representing. The **reason** it is none of your business, is because I AM NOT a **person** regulated by your state. I do not hold any position or office wherein I am subject to your legislature. Your state legislature or you as an employee of the corporate entity cannot tell me what to do becuse I am the sovereign man."

But before you say any of this you had better place on the public record at your local registry that you are indeed a sovereign, hold claim to your corporate ALL CAP name the government uses and your power of attorney over that copy claim trade name. And your denial of corporate existance, ...In other words, you had better understand your status - or you WILL go to jail.

Have you read Sherwood Rodrigez's how he won in the Supreme court that Statutory laws do not apply to us?

How about Micheal Grady?

If you go to catfreedom.org and read the 49 page cat which is an over view of the laws and treaties done.

From there you can look up the treaties etc. But he does have most of them on a cd of which I have and have not had time to read all. They are planning on putting them all on the web. They had at least two web sites before that have been taken down. They have catfreedom.com but feel that that would be taken down and that is why the went to catfreedom.org which is located over seas so the local government will not be able to shut it down.
